## 4-H

### YOUTH DEVELOPMENT

**Potter County 4-H is a part of Texas 4-H, the largest youth development program in the state. There are a variety of clubs and projects for youth ages 5-18. Some of our most popular projects are fashion and interior design, food and nutrition, shooting sports, archery, robotics and STEM, community service, public speaking, photography, veterinary science, livestock, and many more. Youth can participate year-round in as many projects as they want, each one giving them different opportunities and developing an assortment of skills. The backbone of the 4-H program are the adult volunteers. Each volunteer brings a unique skill set to the 4-H program and the youth benefit from their support. We rely on volunteers to lead programs and project areas so the 4-H members are able to develop quality skills and characteristics that will benefit them in the future.**
