| Shrub | AZALEA-G.G. GERBING | Rhododendron indicum Mrs. G G Gerbing | Partial Sun Partial Shade | 4-6 ft tall 4-6 ft wide | White | | | | | | | | Azalea variety is an evergreen shrub with large, bright white spring flowers. It tends to bloom mid-season. Its 3-inch white blooms are plentiful! You may see an occasional rebloom in early to mid-fall. The evergreen foliage has broadly shaped leaves. |
| Shrub | Azalea Evergreen | Rhododendron 'Midnight Flare' | pt sun to pt shade | 3-4' ft. tall 4 ft. wide | Red | | | | | | | | Deepest and richest, fiery, clear red flowers known in the Azalea world. The 2" wide blossoms seemingly cover up the plant in spring. Plant in evenly moist well drained , enriched, acidic soils. |
| Shrub | Banana Shrub | Michelia fuscata | Sun to Part shade | 10-15 ft. tall | Cream | | | | | | | | Received its common name because its flowers smell like ripe bananas. It blooms heavily in the spring with cream-colored, one-inch flowers that look like tiny magnolia blossoms edged with crimson. Blooming will continue sporadically throughout the summer. Plant in lightly acidic, well-drained sandy soil that has been enriched with organic material. Can be pruned to shape. |
| Shrub | 'Blackberry Merlot' <i>Rose Mallow</i> | Hibiscus Hybrid | Sun | 4.5 ft tall 4 ft wide | Deep Red | X | | X | X | | | | Hardy Hibiscus with 8" rich, deep velvety red flowers are produced above a tight, upright habit of deep green leaves. Heat tolerant. Use in beds as a focal point. A perfect centerpiece for a garden with bright and beautiful colors |
| Shrub | BUTTERFLY BUSH-BLACK KNIGHT | Buddleia davidii 'Black Knight' | Sun/ Partial Sun | 4-6 ft tall 6-8 ft wide | Dark Purple | | | | | | | | Spectacular color from lightly fragrant, dark violet-purple flower spikes. A fast growing shrub that works well as a foundation shrub, an accent plant or as a background in borders. May die to ground in cold winter areas, emerging vigorously in spring. Deciduous. |
| Shrub | Butterfly Bush Griffins Blue | <i>Buddleia d, Griffins Blue</i> | Sun | 5-6 ft. tall | Blue | X | | X | X | | | X | Long clusters of true blue, fragrant flowers. Blooms summer until frost. Well drained soil. Dies back in the winter. Comes back from the roots in the spring. |
| Shrub | CAMELLIA-SHI SHI-SAS | Camelia sasanqua Shi Shi | Light Shade | 4-5 ft. tall 6 ft. wide | Pink | | | | | | | | Camellia sasanqua 'Shi-Shi' is a low-growing, evergreen shrub with pink flowers and dark green leaves. It's a popular choice for gardens and can be used in many ways, including hedges, borders, and groundcover. Prefers consistently moist, acidic, organically rich, well-drained soils. |
| Shrub | Confederate Rose | <i>Hibiscus mutabilis</i> | Sun | 6-8 ft tall 3 ft wide | White/ pink aging to red | | | | X | X | | | Deciduous shrub/tree. Growing flowering branches from woody base or short trunk. Broad oval leaves, blooms late summer and fall. An heirloom plant that your Grandmother grew. |
| Shrub | Cooking Bay | <i>Laurus nobilis</i> | Full sun to part shade | 12-40 ft | Small yellow flowers | | | | | | | | Slow grower, compact and broad based, may be multi-stemmed. Leathery aromatic leaves are used for cooking. Good as a container plant. |
| Shrub | Gardenia Kleim's Hardy | <i>Gardenia j.</i> | Morning sun Afternoon shade | 2-3 ft. tall & wide | White | | | | | | | | Dwarf gardenia. Use in raised beds, containers and front of border. Evergreen, five petaled fragrant white blooms late spring. Needs regular watering, especially during heat of summer. |
| Shrub | Gardenia, Variegated Standard | <i>Gardenia j. Variegata</i> | Full sun Light shade | 4-6 ft. tall & wide | White | X | | X | | | | | Dark green and white foliage, large white blooms, upright habit. Needs regular watering, especially during heat of summer. Best with morning sun and afternoon shade. Feed with acid fertilizer after blooming. |

|-------|-----------------------|---|--------------------------------|---------------------------------|------------------------------|------|-------|-------------|-------------|-------|--------------|--------|---|
| Shrub | GARDENIA-DWF. RADICAN | Gardenia jasminoides 'Radicans' | Partial Shade | 1-2 ft tall 3-4 ft wide | White | | | | | | | | The Gardenia Radicans is a beautiful, low-growing form of the common gardenia, with the same wonderful perfume from star-shaped white blossoms. Slightly more hardy and easier to grow than other gardenias. Grow in moist soil. |
| Shrub | Hydrangea Fire Light | <i>Hydrangea paniculata</i> | Partial Shade | Up to 8 ft tall | Pink/red | | | | | | | | Covered with cone-shaped mophead flowers in early summer, and as they age, they take on bright pink and red tones. Most sun, heat, and drought tolerant of all hydrangeas, Plant in well drained soil. |
| Shrub | Hydrangea Nikko | Hydrangea macrophylla 'Nikko Blue' | Morning sun Afternoon shade | 5 ft. tall 5 ft. wide | Blue | X | | X | | | | | Mophead hydrangea. Once bloomer. Rounded, multistemmed shrub with cane-like growth. Popular old favorite. Well drained fertile soil. Little to no pruning. Can be used as a focal point, flowering hedge, or accent plant. |
| Shrub | Hydrangea 'Penny Mac' | Hydrangea macrophylla 'Penny Mac' | Part shade to shade | 4-6 ft tall & wide | Soil Dependent | | | | | | | | Named for American Hydrangea Society founder, Penny McHenry. It is a repeat blooming hydrangea. Softball sized clusters of flowers are blue in acidic soil and pink in basic soil. |
| Shrub | Hydrangea Oakleaf | Hydrangea quercifolia | Part shade | 4-5 ft tall 5-6 ft wide | White | | | | | | | | Large, dense, white flower clusters are held upright above the dark green oak leaf-shaped foliage. The midsummer blooms develop a rosy-pink hue in the fall as the leaves turn deep red-bronze. Tan-brown exfoliating bark is attractive in the winter. Deciduous. |
| Shrub | Indigo, False | Amorpha fruticosa | Sun Light shade | 4-12 ft tall & wide | Purple/Or ange anthers | | | X | | | | X | Deciduous shrub. It is native to moist open woodland areas, floodplains through much of the US. Tubular scented flowers (each to 3/8" long) bloom in May-June in dense, spike-shaped clusters to 8" long. Easily grown in average, medium to wet, well-drained soils in full sun to light shade |
| Shrub | New Zealand Tea Tree | Leptospermum scoparium | Full Sun | 6-10 ft tall 6-10 ft wide | | X | | X | X | | | | Upright evergreen shrub, small aromatic needle-like leaves & showy flowers. Native to Australia and New Zealand. Year round ornamental appeal. Plant in well drained soil. Good for beds, borders, and containers. |
| Shrub | Quince Cameo | <i>Chaenomeles cameo</i> | Sun Part shade | 4-5 ft tall 5-6 ft wide | Peach | X | X | | | | | | Blooms in late winter. Easy care. Well-drained soil. Clusters of semi-double peach colored blooms. Blooms on old growth. To shape prune after blooming. |
| Shrub | Quince Texas Red | <i>Chaenomeles x sp. Texas Scarlett</i> | Full Sun to part sun | 3-4 ft tall 4-5 ft wide | Fiery Red | | | | X | | | | Small, spreading, deciduous shrub. Has cluster of fiery red flowers. Blooms appear early spring before leaves emerge. Branches can be cut in late winter and forced in doors. |
| Shrub | Sage Green Cloud | Leucophyllum frutescens Green Cloud | Full Sun Part shade | 6-8 ft tall & wide | Pink | X | X | X | X | | | | One of the largest and fastest growing Texas sages. Rich green leaves with rose-pink flowers. Tolerant of poor drainage and heavier soils. Good for borders - mixed and rock gardens. Drought tolerant. |
| Shrub | Sage Texas Compacta | Leucophyllum frutescens Compactum | Full Sun | 6-8 ft. tall 6-8 ft. wide | light purple | | | | | | | | Gray foliage with light purple flowers. Slow growing and attractive in dry gardens. Require little to moderate water and well drained soil. |

|-------|-----------------------------|--------------------------------------|-------------------------|-----------------------------|----------------------|------|-------|-------------|-------------|-------|--------------|--------|--|
| Shrub | Serissa Kowloon | Serrissa japonica Kowloon | Sun Part shade | 3 ft | White | | | | | | | | Branching wiry stems form a bushy dome. Stems have tiny, somewhat leathery deep green leaves. Funnel-shaped, star-like, white flowers 1/3" across emerge from pink buds spring to fall bloom. Flowers appear singly or in clusters. Grows in moist, moderately fertile, well-drained soils in part shade (best with morning sun and afternoon shade). Favorite to be grown as a Bonsai. |
| Shrub | Spirea Lime Mound | Spiraea japonica Lime mound | Full sun light shade | 3 ft. tall 6 ft. wide | Pink | | | | X | | | | Lemon- yellow leaves mature to lime green, then turn orange-red in fall. Prune late spring after flowering. Not fussy about the soil |
| Shrub | Spirea, Reeves | Spiraea cantoniensis,Reeves | Full sun light shade | 5-6 ft. tall 10 ft. wide | White | | | | | | | | Arching branches with double white flowers late spring to early summer. Lance shaped blue-green leaves. Prune as for spring bloomers |
| Shrub | SPIREA-DOUBLE RED | <i>Spiraea japonica</i> 'SMSJMFR | Sun/Part Sun | 2-3 ft tall &wide | Red | | | X | | | X | | Low maintenance, deciduous shrub with its thrilling season of color, in both foliage and flower. The color takes place as rich burgundy foliage emerges in spring, followed by an explosion of crimson-red blooms. Grow in average, well-drained soils; tolerates a wide range of soil types. Water deeply, regularly during the first growing season to establish an extensive root system. Blooms on old wood. |
| Shrub | Yucca Red | <i>Hesperaloparviflora</i> | Sun | 2-3 ft. tall | Coral pink turban | | | | | | | | Not a yucca, but evergreen foliage resembles yucca foliage. Coral tubular flowers are atop a 5 ft. stalk summer till frost. Makes good focal point. Needs well drained soil and tolerates drought. |
| Rose | Rosa 'Red Drift' | <i>Rosa</i> 'Red Drift' | Sun | 2' | Red | | | | | | | | Lovely low growing red rose that blooms continually from spring till frost. The petite, red flowers prove to be an elegant addition to any garden, especially when able to naturally drape over a rock wall or edge. |
| Rose | Rose Drift Peach | Rosa Drift Peach Meiggili' | Sun | 1 1/2tall 2 ft. wide | Peach | | | | | | | | One of the most floriferous dwarf shrubs available. Soft peach blooms cover the plant from mid-spring to the first hard freeze of late fall. Pairs well with existing perennials in any landscape and exhibits strong disease resistance. |
| Rose | Rose Drift Popcorn | Rose Drift Popcorn | Sun | 1 1/2tall 2 ft. wide | Yellow | | | | | | | | Has soft buttery yellow blooms that fade to a creamy white. This continuous bloomer flowers all season and pairs effortlessly with other plants. This variety can have slight coloration of Peach Drift®. |
| Rose | Rose Drift Sweet | <i>Rose Drift Sweet</i> | Sun | 1 1/2 ft. Tall | Pink | | | | | | | | Forms full clusters of sweet pink blooms from mid-spring to the first hard freeze of late fall. No cottage garden is complete without the charming romance of Sweet Drift®. |
| Rose | ROSE-DRIFT CORAL | <i>Rosa Coral Drift®</i> 'MELdrifora | Sun | 1 1/2tall 2 ft. wide | Coral | | | | | | | | Low-growing shrub with a dense bushy rounded form. Plant in fertile well-drained moist soil. Add a slow-release fertilizer in spring and then again in summer for more fall blooms. The foliage is medium semi-glossy green on stems with prickles. |
| Rose | Rose Lady Banks | Rose Banksia Yellow | Sun | 6-20 ft. tall | Yellow | | | | | | | | Vigorous, clean, densely growing with very graceful, pliable arching canes. Reaching out, they just sway and float upon a light breeze. Yellow Lady Banks is thornless Just pure soft canes. |
| Tree | ALTHEA ROSE OF SHARON-WHITE | Hibiscus syriacus, | Sun | 8-10 ft tall | White | X | X | | X | | X | | Great large shrub for landscape use, young plants can be used in containers but will need to be moved to the landscape as they mature. Can be trained into a small tree. This is an excellent plant for the mixed border or as a specimen plant. |

Saturday March 28, 2026

| Habit | Common Name | Scientific Name | Light | Height | Flower Color | Bees | Birds | Butterflies | Deer Resist | Hosts | Hummingbirds | Native | Description |
|-------|-------------------------------|---|------------------------|-----------------------------|--------------------|------|-------|-------------|-------------|-------|--------------|--------|---|
| Tree | Althea, Rose of Sharon - Pink | <i>Hibiscus syriacus</i> , | Full to Partial Sun | 6-10 ft tall 5-6 ft wide | Pink | X | X | | X | | | | Spectacular dwarf flowering tree. Large, vivid blooms are pink and abundant. Has a long bloom period from summer through fall. |
| Tree | Althea, Rose of Sharon -Red | <i>Hibiscus syriacus</i> , | Full to Partial Sun | 6-10 ft tall 5-6 ft wide | Red | X | X | | X | | | | Spectacular dwarf flowering tree. Large, vivid blooms are red. Has a long bloom period from summer through fall. |
| Tree | Choke Cherry | <i>Aronia arbutifolia</i> | Sun | 6-12 ft tall 3-6 ft wide | White/ Pink | | X | X | | | | | Multi-stemmed, deciduous shrub that has multi-seasonal interest. Spring brings clusters of white to light pink flowers. The leaves are green and glossy throughout the summer and turn orangish-red or purple in the fall. Bright red pear-shaped berries appear in the fall and may persist through the winter. The bark is reddish-brown. Grown in average, medium moisture soils. |
| Tree | Mayhaw | <i>Crataegus opaca</i> | Part shade or sun | 30-40 ft tall | White blooms | X | X | X | | X | X | X | Grows in wetlands in the wild. Plant in well-drained soil, water during dry spells. Attractive white blossoms early spring. Small apple like fruit in April-May used to make jelly. Host for gray hairstreak and viceroy butterflies. |
| Tree | Pawpaw | <i>Asimina triloba</i> | Part shade Full sun | 15-20 ft. tall | Maroon | X | X | X | | X | | X | Only host for Zebra Swallowtail butterfly. Well-drained soil with regular moisture. Small banana like fruit enjoyed by some folks or will feed wildlife. |
| Tree | VITEX | <i>Vitex agnus-castus</i> | Full sun to Part Shade | 10-15 ft tall | Purple, Pink | X | | | X | | | | Pruning can be done in early spring as flowering occurs on new wood. Can suffer from winter dieback, but will not affect flowering. Prune faded flowers to promote continuous flowering. Flowering will be more spectacular if the plant is heavily pruned after blooming. |
| Vine | Coral Honeysuckle | <i>Lonicera sempervirens</i> | Full sun Part shade | 8-12 ft tall | Scarlet/ orange | X | X | X | | | | | Large, non-fragrant, trumpet-shaped flowers are scarlet to orangish red on the outside and yellowish inside. Flowers appear in late spring at stem ends in whorled clusters. Inedible red berries form in late summer to early fall and are attractive to birds. Oval, bluish-green leaves are glaucous beneath. Grows in average, medium moisture, well-drained soils. Best grown on trellises and fences. |
| Vine | Poet's Jasmine | <i>Jasminum grandiflorum</i> | Sun Part Shade | 40 ft long 15 ft wide | White | | | | | | | | Fragrant blooms appear on new growth spring to fall. A single plant can perfume a garden. Hand prune to keep to desired shape and size. May be grown in container with trellis and even used as a houseplant near a sunny window. |
| Vine | WISTERIA | <i>Wisteria frutescens</i> 'Amethyst Falls' | Sun/ Part Sun | 30 ft long | Purple | X | | X | X | | X | | This gorgeous twining vine is ideal for smaller space. Plant in enriched, humusy, slightly acidic, well-drained soil. Water deeply and regularly during first growing season to establish an extensive root system; |
